

#	Severity (0-4)	Heuristic Transgressed /Supported	Where in the interface/application	issue	remedy
1	3	Visibility of System Status	<p>"STATUS: Needs Immediate Review" message under GPA field</p> <p>(Screenshot 1 below)</p>	Warning message appears even before user enters any GPA. This looks like an error and confuses first-time applicants.	Only show the warning after user input. Reword to a calmer, clearer message explaining why GPA may require review.
2	3	Error Prevention / Help Users Recover from Errors	<p>Application Guide → YouTube embed</p> <p>(Screenshot 2 below)</p>	Embedded video produces player error; users cannot recover or access guidance.	Provide a fallback clickable thumbnail linking to YouTube + written summary of the video steps.
3	2	Match Between System and Real World	<p>Quick Links &amp; Resources section ("i" icon)</p> <p>(Screenshot 3 below)</p>	"(i)" icon logs to console instead of giving real information. Users expect actionable help.	Replace developer console action with tooltip or real help text. Remove developer-only interactions.
4	2	Consistency and Standards	<p>Navigation bar (Home / Application / FAQ)</p> <p>(Screenshot 4 below)</p>	FAQ is sometimes rendered as plain text while others are links. Navigation behaviour becomes inconsistent.	Make all menu items active links or visually mark unavailable ones as "Coming Soon."

5	2	Aesthetic & Minimalist Design	Early layout – Submit button separated by large white space  (screenshot 5 below)	Button looked visually disconnected from the form, confusing users about where to submit.	Move button closer to last required field and reduce spacing to create tighter visual grouping.
6	2	Recognition Rather Than Recall	Step 1–3 form layout (Personal Details, Course Selection, Scholarship Eligibility)  (screenshot 6 below)	All sections expanded at once, overwhelming for new users.	Use collapsible sections / accordion layout to reduce cognitive load.
7	2	Help and Documentation	Form fields (e.g., Full Name, GPA, Entry Year)  (screenshot 7 below)	Many fields lack guidance for international students (different GPA systems, naming conventions)	Add brief help text under each field or tooltip with examples.
8	1	Flexibility & Efficiency of Use	Entire form flow  (Screenshot 8 below)	No shortcuts or quick navigation; experienced users must scroll through all fields.	Provide “jump to section” links or a summary preview page.
9	1	Consistency & Standards (iconography)	Pencil icon in Edit button  (Screenshot 9 below)	Original pencil icon had low contrast and was difficult to see for	Increase contrast (black on light background). This fix was applied.

				low-vision users.	
10	1	Aesthetic and Minimalist Design / Non-text Content	Decorative divider image between form sections  (Screenshot 10 below)	WAVE flagged “missing alt text” on purely decorative divider	Add empty alt attribute ( <code>alt=""</code> ) so screen readers skip it. This was fixed.

## Screenshot 2

This screenshot shows the 'University Enrollment Portal' with a sidebar for the 'WAVE' web accessibility evaluation tool. The sidebar indicates 0 errors, 0 contrast errors, and 9 alerts. The main content area displays 'Step 1: Personal Details' with a red dashed box highlighting the form fields. The form includes fields for 'Full Legal Name', 'Email Address', and a checkbox for 'I agree to the Read the full privacy policy'. A 'Submit Application' button is visible. The right sidebar contains an 'Application Guide' section with a video player showing an error message: 'Watch video on YouTube Error 135 Video player configuration error'. Below the video player is a 'Key Dates' section with a link to 'Activate Windows'.

## Screenshot 4

This screenshot shows the 'Step 2: Course Selection' page of the University Enrollment Portal. The left sidebar features the WAVE accessibility tool with a 'Details' panel showing 6 errors, 3 contrast errors, and 20 alerts. The main content area includes a 'Key Dates' section with a deadline of 12/15, an 'Admission Statistics (2023)' table, and a 'Campus Life' section. The 'Step 2: Course Selection' section allows users to select their top 3 programs from a list: Computer Science, Mechanical Engineering, and Ancient History. A 'Submit Application' button is at the bottom.
